PRO 14

28 APR 1958

MEMORANDUM FOR: CIA Senior Representative (NSA)

SUBJECT: Possible Locations for CHICOM Guided Missile Ranges

REFERENCE: Your Memorandum to AD/RR, Same Subject, 9 April 1958

1. In accordance with your request in the referenced memorandum, this Office is initiating action to undertake a study of the geographical areas in China that would be feasible for use as guided missile ranges. Insofar as practicable, the study will be patterned along the lines of CIA/RR-GR-140.

2. Primary research responsibility for the project will be in the Far East Branch of our Geography Division, but appropriate coordination will be effected with other elements of CIA and the intelligence community. Any necessary consultations between our geographic analysts and the NSA requesters will be arranged through normal channels.
